

## **I'M GONNA LIFT YOUR DESIRE**

*by BEPPE CANTARELLI*

Looking for you baby  
On every street corner  
When I come around  
I will let you know

For tonight you say: "I'll be running through your mind"  
When I could be laying beside you  
And letting you gently  
Some sweet heaven below babe

(CHORUS)

I'M GONNA LIFT YOUR DESIRE  
(I'm gonna) steal it away  
Burn up on your fire  
And I'll give you on choice...no choice but to stay

You know our love is fatal  
Changes with every tide  
You've been giving me a thousand reasons  
The way I should live life

Somebody must've told you that my shadow  
Is worse than my bite  
Now I'm letting you know  
Guiding you gently  
Some sweet heaven below

(REPEAT CHORUS)

(BRIDGE)

Still your words cast the same old spell  
You're the only one to calm this rebel's yell  
When you see me running blind baby  
You let me know  
Steal me away  
Burning me up with your  
Sweet love-fire

(INSTRUMENTAL BREAKDOWN)

(REPEAT CHORUS "Ad Libitum")
